Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Examiner's Remarks filed 01/09/2007 were addressed concerning the argument made in regards to a "first and second calculation". Applicant commented that the first and second calculation are two different mathematical operations rather than composed of a e.g., sum of values a-f as one calculation and a sum of values g-m as taught by Tsuda. Examiner suggested the claims should bring to light that the first and second calculation are two different mathematical operations.
